CAREER OBJECTIVE

Final-year B. Tech Artificial Intelligence and Data Science student with a strong foundation in Java, Python, SQL, object-oriented programming, and problem-solving. Seeking an entry-level software engineering opportunity to apply programming and database skills while contributing to reliable and scalable software solutions.

EDUCATION

B.Tech–Artificial Intelligence and Data Science
VSB College of Engineering and Technical Campus, Coimbatore
2023 – 2027 | CGPA: 8.31/10

Higher Secondary Education
Infant Jesus Matriculation Higher Secondary School
2023 | 73.3%

PROJECTS

Cloud Cost Optimizer | Python, Machine Learning, Streamlit, Cloud Computing

- Developed a cloud cost optimization system to analyze resource usage and identify potential cost-saving opportunities.
- Applied data preprocessing and machine learning techniques to analyze usage patterns and generate cost optimization insights.
- Built an interactive Streamlit dashboard to visualize cloud resource utilization, estimated costs, and optimization recommendations.

AI Powered IT Helpdesk Chatbot | Python, Streamlit, FAISS, NLP | Nov 2025

- Developed a RAG-based chatbot to answer technical queries using information extracted from PDF documents.
- Implemented semantic search using Sentence Transformer embeddings and FAISS for relevant document retrieval.
- Built an interactive Streamlit interface to process user queries and generate document-based responses.

INTERNSHIPS

Techvolt Software Pvt. Ltd., Coimbatore
Data Science Intern | Apr 2024

- Worked with data preprocessing, visualization, and machine learning workflows using Python.
- Performed data preparation and analysis to support model-building tasks.

Roots Industries India Ltd., Coimbatore
Data Analytics Intern | Jun – Jul 2025

- Analyzed manufacturing-related data to identify patterns and support data-driven insights.
- Applied Python-based data analysis and ML techniques to manufacturing use cases.

SKILLS

Programming language: Java, Python
Visualization: Power BI
Database: SQL
Tools: Git, GitHub, VS Code

CERTIFICATIONS AND ACHIEVEMENTS

Power BI – Internshala
Explore machine learning using python – Infosys springboard
NPTEL – Cloud Computing || IIT Kharagpur
Published a patent titled “Aegis AI - Intelligent Cyber Resilience Framework”
